

CURIOSITY

Imagine Albuquerque as a vibrant hub where curiosity is celebrated and seen as a driving force of progress. TEDxABQ is more than just a series of talks—it's a volunteer-powered community that's helping shape our city's future. We create an open, innovative space where old ideas are challenged, new perspectives are welcomed, and learning takes us to the edge of our comfort zones.

By responsibly pushing boundaries, we're building an environment where being curious is exciting, new ideas are for everyone, and innovation thrives.

We blend local Albuquerque stories with new and innovative ideas that can ignite global inspiration and create an impact that goes way beyond our events and borders.

TEDxABQ invites Albuquerque into a playground for curiosity, where diverse ideas collide and charge our city's future.

x = independently organized TED event

Our aim is to connect people from all parts of Albuquerque—doers, makers, thinkers, and dreamers — to share and explore groundbreaking ideas and perspectives. By bringing these different worlds together, we’re sparking new ways of thinking, and forging collaborative paths that may have previously been hidden.

Join us in growing a community that’s turning Albuquerque into a hub of fresh ideas and positive change. Together, we can start conversations and engagements that don’t just change minds, but energize our future.
